OBJECTIVE: Seeking a software engineering internship or co-op. Available May – December 2025

EDUCATION

Rochester Institute of Technology (RIT), Rochester, NY

Bachelor of Science, Software Engineering, expected May 2027

GPA: 3.8/4.0

Related Courses: Introduction to Software Engineering, Personal Software Engineering, Software Development for Transfers, Web & Mobile, Web Engineering, Engineering of Software Subsystems, Linear Algebra, Discrete Mathematics for Computing, Analysis of Algorithms, Game Development and Design, Software Process and Project Management

SKILLS

Programming Languages: Java, Python, C++, C, C#, HTML, CSS, JavaScript/React, SQL, Angular

Operating Systems: Linux/Unix, MS Windows, Mac OSX

PROJECTS

Multi-User Dungeon, Engineering of Software Subsystems August 2024 – November 2024

- Collaborated with a team of four to develop a dungeon-crawling video game
- Project was developed entirely in Java, with Javafx used for the GUI
- Attention was focused on practicing software design principles by implementing design patterns into some of the subsystems, such as an implementation of the memento pattern to manage checkpoints
- Helped to manage communication between team members

Money for Masterminds, Intro to Software Engineering January - April 2024

- Collaborated with a team of five to develop a website where users could fund evil plans for supervillains
- Project was developed with Java and Spring for the backend, and Angular, HTML, and CSS for the frontend, used a RESTful API to manage communication between the two
- Used agile development practices to manage workload and collaborate with team members
- Helped to manage team member's workloads and keep group updated on progress

City Life, Simcoach Games Apprenticeship July 2022

- Developed video game prototype in Unity using C# and git for version control
- Worked as the lead programmer in a group of four
- Prototype was a speed-runner that uses its mechanics and environment to show the benefits of pedestrian-friendly city planning

EXPERIENCE

Simcoach Games

Pittsburgh, PA

Apprentice

June 2022 – July 2022

- Worked in a group to develop video game prototypes using Unity and C#
- Presented these prototypes to professional video game developers and software engineers

LEADERSHIP

Simcoach Games

Pittsburgh, PA

Project Leader

June 2022 – July 2022

- Lead project by managing tasks of team members and developing core ideas for the prototype
- Lead the final presentation of the project, showcasing and commenting over gameplay footage
